The Venerable James Smith Found Dead in His Bathtub This Morning at 9:30.

AN OLD AND HONORED CITIZEN.

Our citizens were shocked at 9:30 o'clock this morning when it was learned that Mr. James Smith had been found dead in his bathtub a few minutes pre-viously.

Mr. Smith was one of our oldest and best citizens, and his death has cast a gloom over the entire community.

The sad news reached THE LEDGER just as the paper was going to press—too late for an extended notice in this issue.

He leaves seven children—four sons and three daughters—Dr. Thomas H. N., Charles E. and Samuel A. of this city and James H. Smith of Ashland, and Mrs. Thomas F. Rogers of Mt. Sterling, Mrs. John C. Fecor of this city and Mrs. John D. T. Chinn of Chillicothe.

WE'RE FOR AMERICA & AMERICANS!

DEMOCRATS who are criticizing the
Dingley Bill have not a word to say in
favor of their own Tariff Law.

It's an insult to the business qualifi-
cations of some members of Legislative
bodies to say that an offer of \$10,000
has been made for a vote and there is
no taker.

THE statement from Frankfort that
the HUNTER men have offered \$20,000
for two votes is probably a full grown
lie, from the fact that no one has
stepped forward to accept half of it.

MR. CLEVELAND's Public Printer dis-
charged \$10 Republican printers before
he asked to have the cloak of the Civil
Service Rules thrown over the Govern-
ment Printing Office. And that isn't
the only branch of the Government in
which cloak has been used to keep
Democrats in office.

ONLY three citizens of the United
States are now appealing from Cuban
prisons for release. Contrast this with
the condition under the Cleveland Ad-
ministration, when American citizens
were compelled to lie months, and even
years, in Spanish prisons without inter-
ference or attempted protection by the
United States.

THOSE "Yankees of the Orient," the
Japanese, to whom the Free-silverites
were wont to point with pride during
the campaign, have disappointed their
earliest admirers. They have aban-
doned silver and adopted the gold
standard. It was cruel on their part
to disappoint the silverites of America,
but business is business.

MCKINLEY's prosperity is making itself
apparent in many industries, but in
none more prominently than in that of
railroad construction. The "Railway
Age," a conservative journal, estimates
that the railway construction of the
United States in 1897 will be 17,500
miles, which, by the way, is more than
twice as much as was accomplished
during President CLEVELAND's entire
term. If this estimate is realized, the
railway construction of the United
States in 1897 will exceed that of any
period in the past decade.

REPORTS from Utah show that the
farmers in the vicinity of the beet sugar
establishment fostered by the Mormon
Church in that state have realized nearly
a quarter of a million dollars this year
in the sale of their sugar beets. This
shows something of the possibilities of
the beet-sugar enterprise in the United
States. With the encouragement which
the new Tariff Bill will give to sugar
production, when it becomes a law, beet
sugar factories will spring up all over
the Northwest, and a few years will see
a large proportion of the hundred mil-
lion dollars now sent abroad for sugar
passing into the hands of the farmers
of this country. Mr. OXNARD, the lead-
ing beet-sugar producer, who is the
father of the industry in this country,
declares that the Dingley Bill is gen-
erally satisfactory to the sugar inter-
ests, and if enacted will give such
encouragement as to insure a rapid
growth in this industry for this country.

WHEN DAN VOORHEES said to ELI
PEAKINS that "everything on the poor
man's breakfast table was taxed," Eli
said:

"I thought coffee, tea, meat, fish,
bacon, bacon, sausages, and bacon,
which makes a good breakfast for
the laboring man, Senator, and none of
these things had a Tariff on them
under the old McKinley Bill. Even the
tobacco the poor man smokes pays no
internal revenue. In Free-trade Eng-
land and the laboring man pays a Tariff
of 4 cents on necessities like coffee, 2
cents on tea, 80 cents on tobacco and
\$2 per gallon on American whisky.
In Germany he pays a Tariff on coffee,
tea, meat, bread and tobacco. In Amer-
ica the rich pay the Tariff. They pay
big Tariffs on tobacco and cigarette
paper, tobacco and cigars, lace, val-
lentines, silk, kid gloves, jewelry, wilton
carpets, plush and brocaded French
silks.

The Senator was silent.

The farmed seem to be getting a
large share of the improved conditions
which have followed the inauguration
of McKinley and the renewal of confi-
dence "Broadstreets." In its latest re-
view of the state of trade in the United
States, says that the staple articles for
which prices are higher include wool,
wheat, flour, raw sugar, petroleum and
lubricated oil, while there is a noticeable
improvement in trade in agricultural
implements, leather and other articles of
this class. Exports of wheat and
flour (included as wheat) amounted for
the week which the report covers to
1,749,419 bushels compared with 1,422,
300 in the preceding week, and was also
an increase for the corresponding week
of the preceding year, while exports of
corn were 5,802,687 against 1,727,000 in
the corresponding week of the last
year.

DON'T MUTILATE COIN.

The New United States Law Very Em-
phatic Upon the Subject.

Letters by the bushel are being pour-
ed on the Treasury Department, ask-
ing for information concerning the new
law in relation to the passing of mutilated
coin; although those seeking the infor-
mation might, in a majority of cases,
have secured it from the United States
Attorneys or Secret Service offi-
cials of their respective localities.

In brief, it may be explained that the
law is in the main an extension of that
against counterfeiting. It provides that
the passing of mutilated or defaced coins
or the mutilation and defacement of coins
for any purpose, shall be held to be a
criminal offense, punishable by impre-
sonment for a period of one to five years
and a fine of \$100 to \$2,000.

Under this law the practice of presenting
ladies with coins of gold or silver,
with the initials of the donor engraved
thereon, to be worn as bangles, will be a
criminal offense.

The law also drives out of business a
number of people who have made a good
living in purchasing mutilated coins at a
reduction from their face value and plug-
ging up the holes so skillfully that the
original mutilation could not be dis-
covered. Even this kind of tampering with
the money of the Government will be re-
garded as an offense under the statute.

Don't fail to place your "ad" in THE
LEDGER if you want the most for your
money.

FORECAST

Of Business to Be Transacted
in Congress This Week.

Disposition to Halt on the Arbitra-
tion Treaty Discussion.

The Chances of the Ratification of the
Treaty Remains Precarious.—The Ag-
reement Bill May Be Called in the
Senate.—The Disastrous Bill.

WASHINGTON, April 5.—It is said that
Acting Chairman Davis, of the Senate
Foreign Relations Committee, does not
intend to press the arbitration treaty
for consideration during the present
week. The debate on the treaty has
been protracted and it is said that a
number of favorable bills have been
offered and voted and the convention, as
a whole, is in shape in which it must be finally ratified, or re-
jected. There appears to be a short session
of several hours to come to make such
a policy probable. No arrangements
have yet been made with respect to
pairs on the floor, and it is said that a
number between individual senators
some time must ensue before the
pairs that two affirmative votes will be
paired with one negative vote, the
number of the pairs being determined
by a two-thirds vote. It is
also understood that Chairman Davis
desires to permit the state department
to have a few days in which to study
the changes that have been made in
the treaty. Unless, therefore, some
one desires to speak on the subject
Mr. Davis will not move an executive
session for the purpose of continuing
the debate until a few days have
elapsed. The chances of the ratification
of the treaty remains precarious.

The Senate appropriations committee
reported the agency bill, and it is
expected that it may be called up
at any time. By Tuesday the sundry
civil and the Indian bills will be ready.
The latter bill will no doubt lead to
some discussion over one or two
small amendments that will open the
door to that was made over
the bill at the last session.

Mr. Elkins, of West Virginia, will
deliver a speech Monday on the bill
defending it for a per cent. discount
instant tax on goods brought to the
United States in ships not those of this
country. This speech has been prepared
with great care, and treats of
the subject exhaustively.

The purpose of the bill is in-
dorsed by a plank in the national
republican platform, and has
been approved in the Senate by a
majority of the members. Elkins intends
to force the bill to the front, and believes
that this congress will enact it into a
law. While the subject has been
tossed upon in the discussion, it has
been fully and thoroughly treated
as it will be by Mr. Elkins
Monday. The bankruptcy bill still re-
mains the unfinished business on the
Senate calendar. The Senate shall have passed
one or more of the appropriation bill's
now on its calendar by Wednesday,
when the house of representatives
will have passed its appropriation
bill. It is the main extension of that
against counterfeiting. It provides that
the passing of mutilated or defaced coins
or the mutilation and defacement of coins
for any purpose, shall be held to be a
criminal offense, punishable by impre-
sonment for a period of one to five years
and a fine of \$100 to \$2,000.

Under this law the practice of presenting
ladies with coins of gold or silver,
with the initials of the donor engraved
thereon, to be worn as bangles, will be a
criminal offense.

The law also drives out of business a
number of people who have made a good
living in purchasing mutilated coins at a
reduction from their face value and plug-
ging up the holes so skillfully that the
original mutilation could not be dis-
covered. Even this kind of tampering with
the money of the Government will be re-
garded as an offense under the statute.

Don't fail to place your "ad" in THE
LEDGER if you want the most for your
money.

FOREST FIRES.

The Drought Has Increased the Danger in the East.

Thirty Thousand Acres of New Jersey Land Laid Waste.

Three States Suffer from the Flame—Small Farms Burned Over and Farms in the Towns are Left Bare—Express Train Stopped.

New York, April 5.—Forest fires are still raging in the highlands of the Hudson, but those on Long Island and in New Jersey are now under control. At West Haven, L. L. is a change of the wind saved the town from destruction. The long drought has increased the danger everywhere. At West Winfield, Conn., a express on the New Haven railroad was stopped by forest fire. Miles of track are damaged. At West Point, in this state, detachments of cadets were ordered out to fight the flames. They kept the fire from spreading.

The Hammon Fish property and other estates along the Hudson river are overrun by wildcats and small game, driven out of the woods. The cats are now coming by night. In some cases they have entered houses and slunk away in dark corners.

A large section of the forest near the state military camp at Peconic is a blazed out wasteland. It is thought the camp might be destroyed Saturday. Small farms are burned out and families are seeking refuge in the towns. In New Jersey as far 30,000 acres have been laid waste.

LEWISBURG, W. Va., April 5.—Last

evening at 2:30 Mrs. Zena Schum, wife of

Washington, April 5.—The new

constitution of the State of Illinois, at

the entrance to the state, are about

completed, and the government has

discharged about 300 of the men who

have been at work on the for many

years past, as follows: Hale

voted for Blackburn, Clarke for Boyle

Elliston for Davis and Rice for Stone.

Flippin voted for Hunter, but Brown

and Moore voted for a amendment.

As Flippin withdrew his vote, and it was

not recorded. The joint

assembly then adjourned.

There was considerable excitement

Saturday in the state camp over the

visit of Frank Holt and Secretary of

State Sam Taylor, of Ohio, to Cincinnati.

They left Friday the same

train that Nicklin and Hammon had

hoped to have visited that day.

Early Saturday morning the

Hunter telegraphed their forces to

report back at Frank or not later

than Monday.

The story of letters have been re-

ceived from President McKinley

advising the withdrawal of Hunter

was received Saturday morning. An

anti-hunter man is authority for the

statement that a letter of such a char-

acter was sent Saturday morning,

but Hunter's friends say "he'll never

be withdrawn."

It is stated that either Senator Goe-

bel or Henry G. Davis either

selected the bushwhackers to throw

his strength to one or the other.

A Lady Well Known in This County to be a Missouri Gentleman.

Cards have been received by relatives in the county announcing the marriage at an early date of Miss Mary Paxton Tebb of Plate City, Mo., to a prominent young man of St. Joseph, Mo.

The bride-to-be is a granddaughter of Mr. W. M. Paxton, formerly of this county, and is a cousin of Judge James Paxton Harboon of this circuit. She visited in the county a few years since.

Jolted to Death.

The Kidneys are peculiar sensitive to jolting or jarring of any kind, and it is a well known fact that the "Kidneys, Broken and Bleeding" in some form, so easily give way to kidney or bladder trouble in some form. So many travel, many spend one quarter of their time in a jolting vehicle, and strain comes on the Kidneys, and the result is a pain in the pain, *backache*. The sick kidneys often try to quiet this agony by retarding the jolting, or deadening it with a moment.

The Chicago Racing Association has brought suit against the estate of the late colored jockey, Isaac B. Murphy of Lexington, for \$6,000 damages in money in 1894. Although not generally known, after the debts of the famous jockey were paid little of the large estate remains.

Mrs. A. Inveen, residing at 209 Henry St., Alton, Ill., suffered with sciatic rheumatism for over eight months. She deteriorated for it nearly the whole of this time, using various remedies recommended by friends, and was treated by the physicians, but received no relief. She then used one and a half barrels of Chamberlain's Pain Reliever, which effected a complete cure. This is published at her request, as she wants others similarly afflicted to know what cured her. DISGUSTING SELFISHNESS.

Exhibited on one of the C. and O. Trains to Cincinnati Last Week.

On one of the crowded trains from Cincinnati last week there was about as disgusting an exhibition of selfishness as has been our fortune to meet for some time.

A female—we won't dignify her by the name of woman or lady—occupied a whole seat alone, and so far from offering part of it to some of her own sex who were standing, she deliberately squared herself across the seat with her back to the aisle and stared out the window.

We know the ladies in the coach must have viewed the proceeding with disgust and contempt.

It was very evident that all she lacked was a hand to hold.

HOW TO FIND OUT.

Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains like it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also a convincing proof that the kidneys are bad.

WHAT TO DO.

The kidneys are peculiar sensitive to jolting or jarring of any kind, and it is a well known fact that the "Kidneys, Broken and Bleeding" in some form, so easily give way to kidney or bladder trouble in some form. So many travel, many spend one quarter of their time in a jolting vehicle, and strain comes on the Kidneys, and the result is a pain in the pain, *backache*.
